PROFESSIONAL SUMMARY

Results-driven Software Engineering student (CGPA 3.90 / 4.00) at PMAS Arid Agriculture University with 2+ years of hands-on experience building responsive, production-grade web applications. Proficient in React.js, JavaScript (ES6+), HTML5, CSS3, and MySQL. Proven track record delivering measurable results across two internships — including a 30% reduction in manual reporting time and a 20% improvement in layout efficiency. Experienced in Agile/Scrum environments, component-based architecture, REST API integration, UI/UX implementation, and cross-functional collaboration. Seeking a Software Engineer or Frontend Developer role to build scalable, impactful software solutions.

EDUCATION

PMAS Arid Agriculture University Rawalpindi, Pakistan
Bachelor of Science in Software Engineering (BS SE) 2023 – 2027
CGPA: 3.90 / 4.00 | Completed 6th Semester | Relevant Coursework: Data Structures & Algorithms, OOP, Database Systems, Software Design Patterns, HCI, Web Engineering

ICAP (Institute of Chartered Accountants of Pakistan) Lahore, Pakistan
AFC — Accounting & Finance Certificate 2021 – 2022

BISE Bahawalpur Bahawalnagar, Pakistan
FSc Pre-Medical (Intermediate) 2018 – 2020

PROFESSIONAL EXPERIENCE

Erudite Coaching Centre — Islamabad, Pakistan June 2025 – October 2025
Frontend Developer Intern | Non-Profit EdTech Platform

- Developed and maintained front-end features for the organization's learning management web platform using HTML5, CSS3, and JavaScript, reducing page load issues by optimizing component structure, DOM rendering, and asset delivery.
- Engineered a digital HR tracking dashboard from scratch, automating internal reporting workflows and cutting manual data-entry time by an estimated 30%, directly improving operational efficiency.
- Bridged the gap between non-technical stakeholders and engineering by translating ambiguous operational requirements into functional, accessible UI features — with zero revision cycles post-delivery.
- Maintained clean, modular codebase following established coding standards and version control practices using Git and GitHub.

Daybie Associates — Islamabad, Pakistan June 2024 – July 2024
Software Engineering Intern | Full-Service IT Solutions Company

- Developed high-performance, responsive front-end components using React.js and CSS3 for multiple client-facing web applications, ensuring seamless UX and full cross-browser compatibility (Chrome, Firefox, Edge, Safari).
- Collaborated in an Agile/Scrum team across sprint planning, daily stand-ups, and code reviews, contributing to a 20% improvement in layout efficiency by resolving critical UI/UX bottlenecks.
- Implemented clean, reusable component architecture following React best practices — reducing redundant code by approximately 25% and accelerating future feature development.

PROJECTS

Bean Forge — Coffee Procurement & Ordering Platform

2025

Tech Stack: HTML5, CSS3, JavaScript (Vanilla) | GitHub: github.com/BuildsByMT | Live: beanforge-pink.vercel.app

- Engineered a full-stack-style multi-page e-commerce web application featuring product catalog, shopping cart, user authentication, and order management — deployed live on Vercel with zero downtime since launch.
- Implemented role-based access control with separate Customer Dashboard and Admin Panel, supporting real-time order status tracking and B2B wholesale quote request workflows.
- Designed a dynamic product filtering system spanning 7 categories with fully responsive layout and multi-modal interaction patterns (cart drawer, quote forms, authentication modals).
- Achieved consistent performance metrics: sub-2-second page loads and 95+ Lighthouse performance score.

Personal Portfolio Website

2026

Tech Stack: React.js, CSS3 Animations | Live: muzammil-murex.vercel.app

- Architected and deployed a personal portfolio website from scratch using React.js featuring animated UI transitions, project showcases, and a fully responsive mobile-first design — live at muzammil-murex.vercel.app.
- Demonstrates mastery of component-based architecture, CSS keyframe animations, React hooks (useState, useEffect), and modern frontend deployment via Vercel CI/CD pipeline.

Library Management System

2024

Tech Stack: C#, .NET Framework (WinForms) | GitHub: github.com/BuildsByMT/LibraryManagementSystem

- Built a desktop-based Library Management System using C# and .NET Framework implementing full CRUD operations for book inventory, member registration, borrowing/return workflows, and overdue fine calculations.
- Applied Object-Oriented Programming principles (encapsulation, inheritance, polymorphism) to build a clean, maintainable codebase with layered architecture.

TECHNICAL SKILLS

Frontend:	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design, Cross-Browser Compatibility
Backend & Databases:	MySQL, Basic Node.js, REST APIs, C#, .NET Framework
Languages:	JavaScript, Java, C#, C++
Tools & Platforms:	Git, GitHub, Figma, VS Code, Visual Studio, Cypress (Testing), Arduino, Vercel, AI Tools
Methodologies:	Agile/Scrum, Extreme Programming (XP), OOP, Data Structures & Algorithms, UI/UX Design Principles
Soft Skills:	Problem-Solving, Self-Motivated, Continuous Learner, Time Management, Cross-functional Collaboration

CERTIFICATIONS & TRAINING

Tailwind CSS Training — Younge Interns

2025

Introduction to Data Science — Google Career Certificates

2025

Foundations of UX Design — Google Career Certificates

2025

ACHIEVEMENTS & EXTRACURRICULARS

- Runner-Up — Badminton | HITEC Olympiad 2024 (Demonstrates leadership, competitive mindset, and teamwork under pressure)
- Actively building open-source projects on GitHub under BuildsByMT — consistent contributor to personal and team repositories.

Languages: English (Professional Proficiency) | Urdu (Native / Full Professional Proficiency)
